FW 2021_22 REIGN OF COLOR

"VOSTEX Fashion FW 2021_22" Collection stands for adding as many colors and patterns as possible and creating... sheer beauty through the great variety and quantity of colors and motifs...

Our inspirational concept

"Scrambled color shades taking over from tonal and monochromatic gradations and color blocking".

"Sophisticated interpretations of shaded shades and clashes of attractive saturated hues".

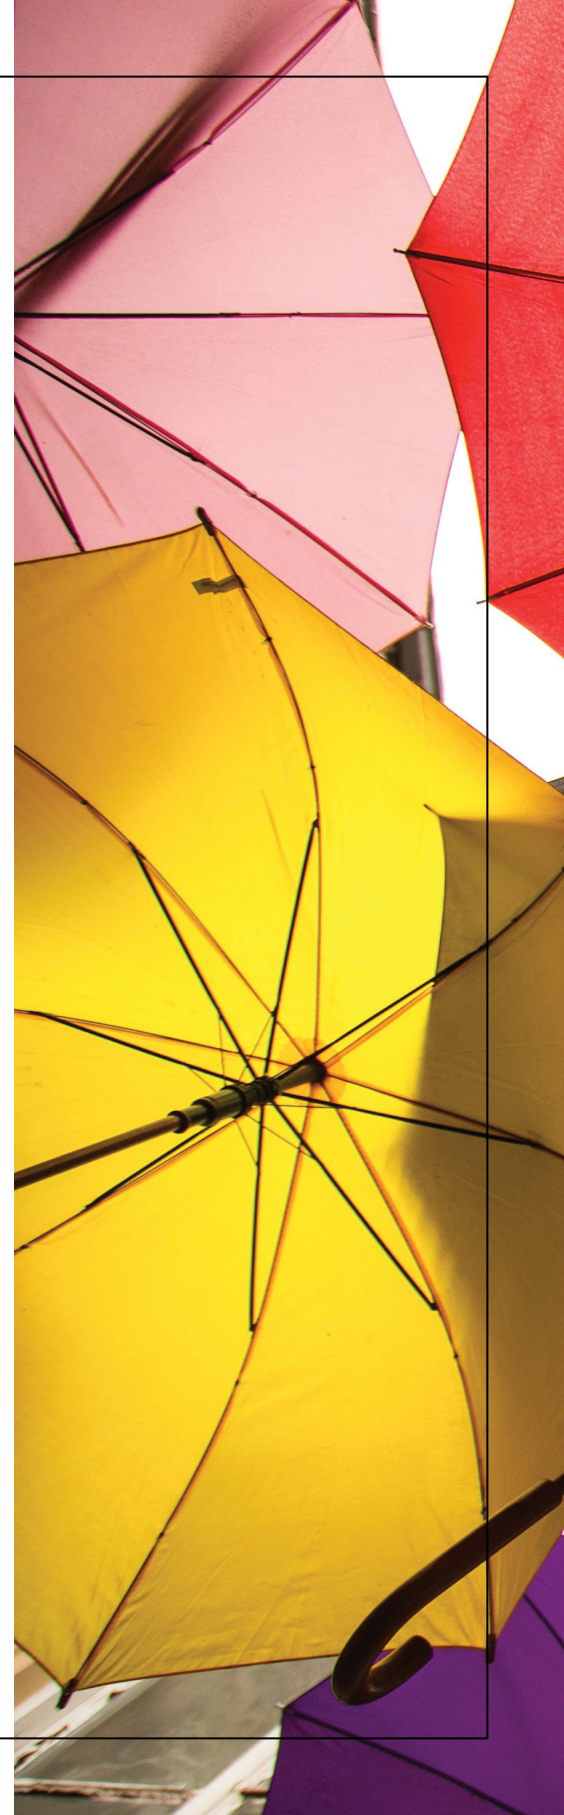

Working with a very rich color palette that is an invitation to travel through different universes and temporalities, in which varied tone heights convey the season's strong artistic leaning.

For **FW 2021_22** we have designed a premium, trims & accessories Collection with **a unique personality & a strong identity.**

Our first Look book is inspired by the hands-on, write-in, look-and-feel idea of a Fashion Editorial Mood board, in order for you to think through, write up, and sketch out your own fashion ideas... following the ultimate process of a fashion designer, to create your own Fashion Collections.

Style ideas, outfit & fashion accessories inspiration from the top seasonal trends, with curated & exclusive photo material.
